

FSI Knowledge Organiser- Class Robin

Robins are a common bird in the UK.

Male and female robins look very similar.

Birds have feathers.

Robins have an orange-red face and breast. The rest of their body is brown and white.

Birds lay eggs.

Robin eggs are small and blue.

Robin Life Cycle

Robin chicks do not have a red breast.

Robins eat minibeasts, seeds and fruit.

Things to do at home:

- do some bird watching
- make binoculars
- make a bird feeder
- draw/paint/colour a robin
