Key Questions

Has this image been edited?

In what ways do people edit images?

Why shouldn't we believe everything we see with images?

What's the difference between portrait and landscape?

Which devices can take photographs?

Year 2

Digital Photography

Information

We can use digital devices to help us to take and edit photographs

Many different devices can be used to take photos, for example digital cameras, phones, tablets and webcams

We can also use lots of different apps and programs to edit and improve photos, for example Photoshio, Luminar and Pixlr

We should understand that not all photographs that we see are real – they may have been edited
