

FS2 Knowledge Organiser– Under the Sea

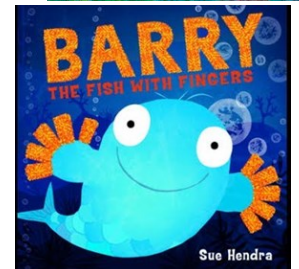

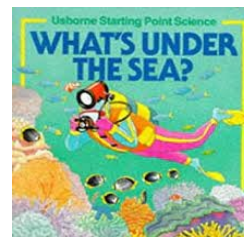

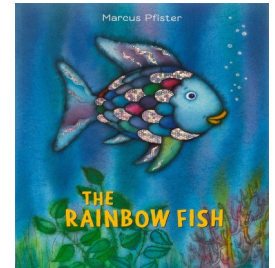

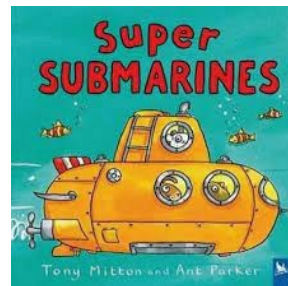

The ocean word mat

Submarines are underwater boats, that can stay submerged for long periods of time.

Books we will be reading:

Under the Sea!

- ♦ There are over 300 different kinds of octopus in the sea.
- ♦ Octopus have 3 hearts, but no skeleton.
- ♦ Sea turtles have a hard shell that protects them like a shield.
- ♦ Sharks have fantastic hearing.
- ♦ Most fish breathe through gills and have fins and scales.
- ♦ The largest ocean is the Pacific Ocean

Things to do at home:

- Make a submarine out of a plastic bottle or other junk modelling.
- Ask a grownup to show you a video of tropical fish on You Tube.
- Go to the library to look for Non-fiction books about fish.
- Look on a map or a globe to see how much of the world is made of water.

Parts of a submarine:
