

Books we will be reading:

Under the Sea

- Blue Whales are the largest animals on Earth.
- The Blue Whale's heart is the size of a small car.
- Sea Turtles have been around since the time of the dinosaurs.
- Fish are the sea animals that live and breathe underwater, have scaly skin, fins and gills.
- Whales talk to other whales by singing.
- When people want to dive into the ocean they need to use a submarine or they can SCUBA dive.

Things to do at home:

- Draw pictures of different fish.
- Ask a grownup to show you a video of a whale on You Tube.
- Look on a map to see where the Snail and the Whale travelled.
- Make a jelly fish out of a paper plate.
