

# FS2 Knowledge Organiser—Art Week—Meadows

- A meadow is an area of land where grasses and other small plants grow freely.
- Meadows do not have many trees.
- Bees, butterflies, and other insects love the wildflowers in meadows.
- Many birds build nests in the tall grasses and hunt for insects or seeds.
- Animals like rabbits, field mice, and voles live in meadows. They find food and hide from predators.
- Deer and other larger animals might visit meadows to graze.

Books we will be reading:

Things to do at home:

- Go for a walk in a meadow and look for insects and flowers.
- Paint some meadow flowers.
- Pick some flowers and press them in books.
- Make a bug hotel out of old wood and cardboard.
