

# FSI Learning Journey- Summer 1 Week 4

We set up an experiment to find out what seeds need to grow. We had: water/no water, soil/no soil, inside/outside, cupboard and fridge.

We enjoyed stay and play this week with our grown ups! We did maths, looking at triangles, and read a story together.

Our focus sound is 'R'.

Amelia, Teddy, Freddie,  
Niall, Nel, Chenuli, Mia

We have been recapping shapes in maths. We made pictures with shapes and talked about how we know that a circle is a circle by describing its properties.

# FSI Learning Journey- Summer 1 Week 4

We have planted beans to grow beanstalks like Jack and the Beanstalk. We know we need soil, water and sunshine to help them grow tall.

We have been enjoying playing in our garden centre role play.
