

FSI Knowledge Organiser- Hot & Cold

We will be sorting animals into those that live in hot habitats and those that live in cold habitats. A habitat is an environment where something lives.

Hot desert habitat

Cold desert habitat

We will be reading Handa's Surprise and looking at the different animals in the story.

monkey

ostrich

zebra

elephant

giraffe

antelope

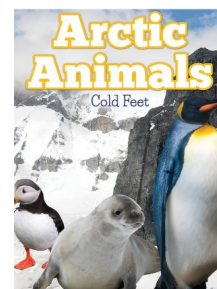

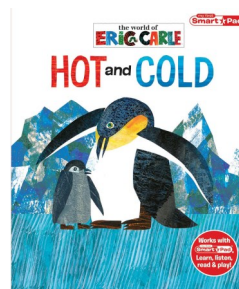

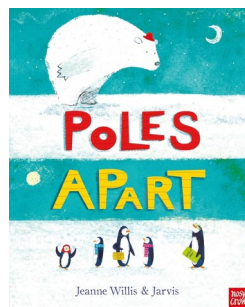

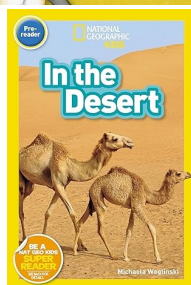

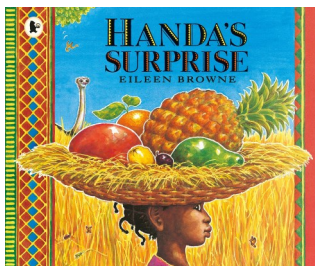

parrot

goat

Books linked to the topic:

Polar Animals

penguin

polar bear

killer whale

seal

Arctic fox

musk ox

wolf

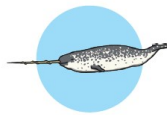

beluga whale

reindeer

walrus

narwhal

albatross

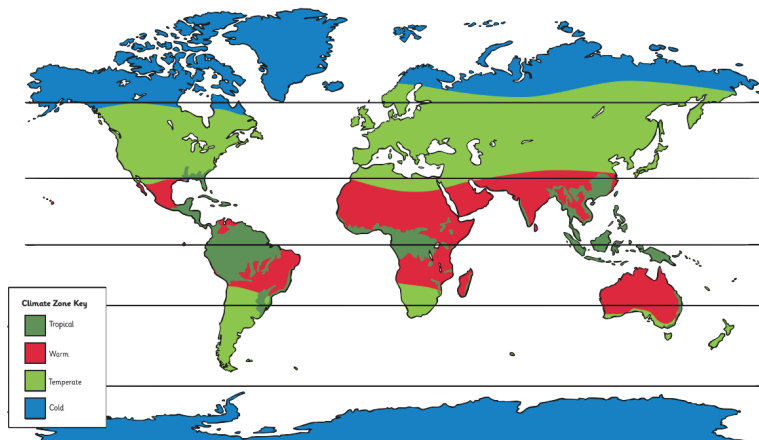

Arctic hare

snowy owl

FSI Knowledge Organiser- Hot & Cold

We will be looking at maps/globes. We will learn what land looks like on a map.
We will be focussing on the North/South Pole and Africa.

Climate

Climate is the average weather usually taken over 30 years for a particular place.

Countries have different types of 'climate' around the world; they can be **hot** or **cold**.

Cold or Polar Climates

Finland

Arctic

Norway

Greenland

Hot Climates

Australia

North Africa

Middle East

Mexico

- Things to do at home:** - sort things into hot and cold.—Use the words 'same' and 'different' to compare.
- Compare hot and cold climates. Which animals live there? Where would you like to live? Why? What would you take if you went on holiday there?
 - Look at books— is the book set in a hot climate, a cold climate or another climate?
 - Do craft activities based on hot and cold places.
